## SPRING FEATURE ALPINE SO FINE

The Alps radiate the glory of Spring as well as any place on Earth with their blossoming meadows, majestic panoramas, & often turbulent weather.

This season we'll explore unique expressions from various corners of this inspiring realm, that often offer uplifting aromas and crunchy fresh textures to parallel our kitchen's new Spring prizes.

Look to the mountains  & dive deeper on pages 4-7...

# SPRING FEATURE - DO YOU LIKE ALPS?

Spanning across eight countries and over 750 miles, the Alpine Mountain Range is an iconic feature of Central Europe.

Human history here spans 50,000+ years, that has resulted in nearly a dozen languages spoken across its habitable lands, fractured by this grand upheaval of the earth. Yet, these mountains have also connected such separated peoples with treasures to find on its slopes. Poor, rocky soils on precipitous precipices, favored exposures to plentiful sunlight, yet cool nights preserving crisp acidity and tautly-lean structure, as well as deep wine traditions would be boons to any winemaker, yet are all near unanimous features in the following bottles. Adventure with us as we explore many unique, yet classic wines to revel in Spring joy of the Alps!
